fiTi FITI Testing & Research Institute

FDA U.S. Food and Drug Administration

FDA approved raw material and FITI Testing & Research Institute test certified product

Excellent Antibacterial Performance Deodorizing Function UV Blocking

Differentiated with post-processed products, **ATB-UV+** inserts the silver component inside the yarn with special technology and shows excellent antibacterial performance even after washings. Cross-section structure of special fiber with many small pores allows quick release of sweat and maintains freshness. Moreover, it blocks UV-A(320-400nm) that penetrates deep into the skin.

Eco-Friendly Raw Material

Removal of Harmful VOC's (Formaldehyde, etc.)

Decomposition of Harmful Substances and Air Purification

Antibacterial Antifungal

UV Protection Dehumidification

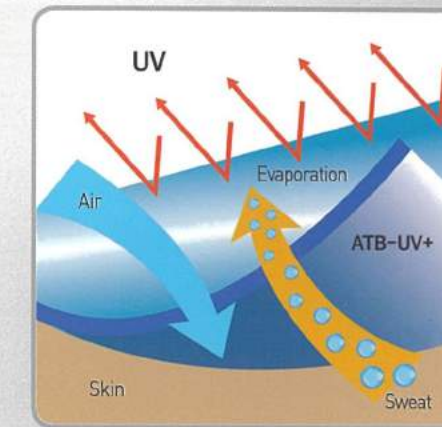

Elegant Interior Effect

High-quality blind with natural health and freshness

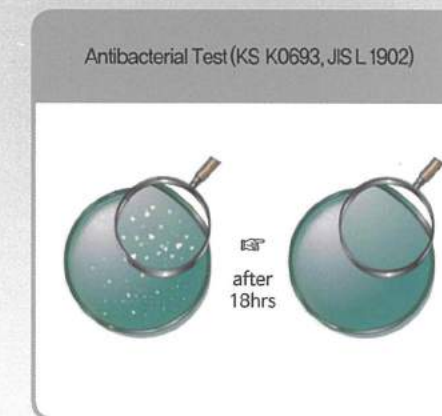

High-Tech **Antibacterial** Fabric Blind

Kolon's eco-friendly ATB-UV is a high-quality product which offers 99.9% antibacterial function by silver content to secure health and freshness and fits perfectly with your family

UV Protection

It blocks UV rays that penetrate deep into the skin by blocking not only UV-B(290-320nm) but also UV-A(320-400nm).

Excellent Antibacterial Function

ATB-UV+ provides excellent antibacterial effect by containing silver component.

Differentiated with post-processed products, the silver component is inserted inside the yarn with special technology and shows excellent antibacterial performance even after several washings.

ATB-UV+ is safe with FDA approved safe silver component.

ATB-UV+ inhibits the growth of microorganism and prevents secondary odor.

Fast discharge of moisture and drying

ATB-UV+ has specially designed cross-section structure that releases sweat or moisture and dries quickly.

ATB-UV+ offers freshness In rainy season in summer and warmth during winter with rapid drying.
